

Change Leader Development Programme

Based On
Four x 2 Day
Sessions

Training, Application, and Results come together
in our Change Leader Programme

This development programme is designed to do two things :-

1. To create and develop recognised "Change Leaders" in your organisation.
2. To deliver positive performance benefits to your organisation as part of the programme.

We have taken the very best of one hundred years of learning in the field of "change" and "process improvement" and put it all together under one very modern roof.

The programme draws from the best thinking on Leadership, Facilitation, Creativity, Change Management and combines it with the most useful elements of Lean, Six Sigma, and Kaizen.

Hence we have created a unique blend of the "hard" and the "soft" toolkits.

The training is supported by a carefully designed structure within which participants are challenged to deploy their learning and deliver real benefits to your organisation.

Embarking on a Change Leader Programme requires some discussion on content and decisions about the support structure.

Let's talk about it.
