

Anticipate and Prevent Process and Design Failures In Your Organisation

A 1-Day
Interactive
Training Module

Gain practitioner level expertise in this essential methodology which reduces the cost of failure in your organisation!

*Established in 2001,
we have become
leading providers
of training and
consultancy in the
field of
"Improvement"*

- Understand the true cost of process or design failures in your business
- Learn some great ways to anticipate and prevent potential failures
- Speed up new process and new product introductions with fewer design revisions
- Increase customer satisfaction, reduce warranty, after sales, and problem recovery costs
- Be able to quantify failure risk using three interconnected metrics
- Rigorously prioritise the key issues from the sometimes confusing list of possibilities
- Gain awareness of the pitfalls and how to avoid them
- Learn from the history of infamous failures

"I can use this right away !" tends to be the feedback from this course.

This course is designed for anyone interested in process or design improvement in either a service or production environment.

The session is very interactive and utilises real life case studies.

The methodology is presented as a straightforward series of steps you must take.

Comprehensive course manuals are provided.
