Change Leader

Based On Four x 2 Day Sessions

This development programme is designed to do two things :

1. To create and develop recognised "Change Leaders" in your organisation.
2. To deliver positive performance benefits to your organisation as part of the programme.

We have taken the very best of one hundred years of learning in the field of "change" and "process improvement" and put it all together under one very modern roof.

The programme draws from the best thinking on Leadership, Facilitation, Creativity, Change Management and combines it with the most useful elements of Lean, Six Sigma, and Kaizen.

Hence we have created a unique blend of the "hard" and the "soft" toolkits.

Embarking on a Change Leader Programme requires some discussion on content and decisions about the support structure.

Let's talk about it – a quick chat can get the ball rolling.

Training, Application, and Results come together in our Change Leader Programme

The training is supported by a carefully designed structure within which participants are challenged to deploy their learning and deliver real benefits to your organisation.

"We have trained a cohort of Change Leaders. They are already making a positive difference in our organisation."

Practical, Relevant, Interactive Training
